Ref: Doping Control Officers - Rio 2016th Olympic and Paralympics Games

Dear President Casasco,

As Doping Control Services General Manager of the Rio 2016th Organizing Committee for Olympic and Paralympics Games I am actually starting the recruitment of the Doping Control Officers to be engaged during the Games.

To this respect, in view of your DCOs great tradition and consideration, as they are the only ones in the world who are all MD, and most specialist in sports medicine, recently reinforced also by the excellent experience of the Torino 2006 Games (zero non-conformities identified) and London 2012 where all the stakeholders appreciated very much the Doping Control Officers of the Italian system, in the name of the international cooperation and excellence which have been always characterized your Federation I would be pleased to get your availability to provide our LOC with DCOs belonging to FMSI during Games time.

Thus, please let me know if you would be available to provide us with 10 DCOs who will be accredited and hosted by the Rio2016 Organizing Committee. This would add a great value to the whole Olympic anti-doping system, also for the intense and qualified training your DCOs get from FMSI, which I know is also accredited by an International Declaration of Conformity for samples collection for anti-doping purposes in accordance to the WADA International Standards, confirmed by two certification bodies.

Looking forward to hearing from you, I remain

My very best regards,

Eduardo Henrique De Rose
Gerente Geral de Serviços de Controle de Doping
Doping Control Services General Manager
Departamento de Esportes
Sports Department
